2. What is the function of laminin?
a. makes energy b. aids digestion c. holds us together
3. How many different kinds of proteins are in your body?
a. 9,000 b. 6 million c. unknown
4. What does shape of a laminin molecule look like?
a. a cross b. a cube c. a star

Deeper Discussion

1. What is your response to the story of laminin? Consider the connection to Colossians 1:17 that says, "He is before all things, and by Him all things hold together." Talk about a time when God held you together through one of the most difficult things you have ever endured in life.
2. Perhaps you are in a tough place right now. How can you be sure that God will hold you together and carry you through? (Isaiah 40: 25-31.)
3. There is a plan and purpose for "those who hope in the Lord." Does this mean He will make your circumstances rosy?
4. What does it mean to wait on the Lord? (Psalm 27: 14.) What are some practical ways you can do this when everything in you wants to scream, "God, fix this!"?
